

Get an Inside Look at Cleanup Activities at the Rocky Flats Plant

Quarterly Public Information
Meeting on Environmental
Restoration Activities

The U.S. Department of Energy, The U.S. Environmental Protection Agency and the Colorado Department of Health invite you to observe cleanup work behind the fences of the Rocky Flats Plant.

A narrated video has been produced to spotlight the Solar Evaporation Ponds, Operable Unit 4, to give you an inside look at one of the more important remediation programs at the Rocky Flats Plant.

An overview of the plant's entire environmental restoration program and the Interagency Agreement milestone schedule will also be presented, followed by a question and answer session.

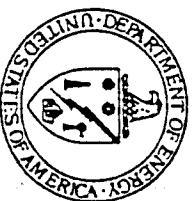

Please join us:

**Tuesday, April 13, 1993
7:00 to 9:00 p.m.
Ramada Hotel
8773 Yates Drive
Westminster, Colorado**

For further information please contact Beth Brainard, Public Affairs Officer,
U.S. Department of Energy, 303-966-5993 or Melanie Zgabay, EG&G
Community Relations, 303-966-4001.
